

The background of the slide features a blue-toned image of a person in a suit. Overlaid on this are several white gears of various sizes and several colorful line graphs with arrows pointing upwards, symbolizing industry and growth.

Company Overview

Introducing Azima DLI

Our Value Proposition

A photograph of an industrial facility. In the foreground, there is a large blue electric motor with a black fan. Behind it, a complex network of yellow and red pipes and valves is visible, along with a yellow metal structure. The scene is brightly lit, suggesting an indoor industrial environment.

We turn every machine into a cash machine.

- Uptime Management is our only job.
- We deliver results – not just technology, data & support.
- We help big companies drive production performance.
- We maximize the value of uptime & minimize the cost of downtime.

Our Clients

Our clients operate at maximum capacity.

- Our clients are serious about maximizing uptime.
- When they have capacity, they can sell it.
- Our clients are smart, collaborative & process-driven.
- We help them stop fighting fires, and start making business decisions.

Our Footprint

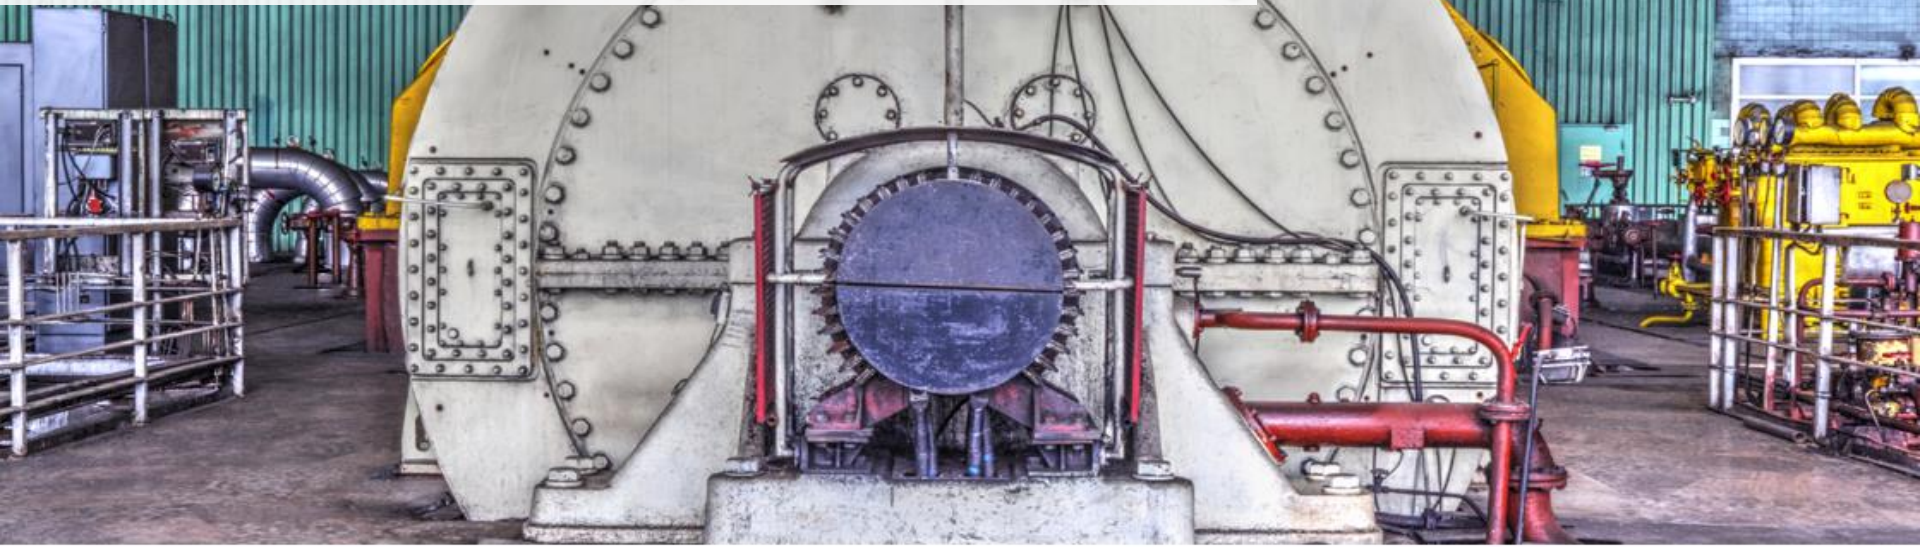

A photograph of an industrial facility, likely a water treatment plant, featuring large blue pipes, red electric motors, and yellow safety railings. A semi-transparent white banner is overlaid on the image, containing the text 'No one monitors more capacity in more industries & places.'

No one monitors more capacity in more industries & places.

- We currently monitor nearly 100,000 assets in 12 different industries.
- We conducted almost one million machine tests in 2016.
- We monitor assets in dozens of countries, on every habitable continent.
- We even cover stuff on the oceans.

Our Solution

We deliver programs, not parts & pieces.

- We provide turn-key programs, and collaborate with our clients.
- We worry about the parts & pieces, so our clients don't have to.
- Our domain experts provide service & support, all over the world.
- We deliver whatever it takes to enable client success.

Our Competitive Edge

When companies go big, they go Azima.

- We're the go-to provider for Uptime Management at scale.
- Azima = efficiency of algorithms + accuracy of data + judgment of experts.
- It's the best of both worlds: automated solutions and live domain expertise.
- And we deliver it across multiple plants, locations & countries.

Our clients are serious about uptime.

Operate at capacity.
