

FINAL: FOR IMMEDIATE RELEASE

Azima DLI Showcases WATCHMAN Reliability Services™ and the latest Predictive Maintenance Tools and Technology at RELIABILITY 2.0 2014 Conference

Leading PdM Analytical Services and Products Provider to Display Newest Additions to its family of TRIO Vibration Data Collectors and Analyzers

LAS VEGAS- RELIABILITY 2.0 Conference and Expo - April 4, 2014 -- [Azima DLI](#), the leader and premier provider of Predictive Maintenance (PdM) analytical services and products, today announced plans to exhibit at next week's [RELIABILITY 2.0](#) conference in Las Vegas. Presented by Reliabilityweb.com® and Uptime® Magazine, RELIABILITY 2.0 is a conference for high-performance reliability management.

Company representatives will be on hand, at booth #43, to showcase Azima DLI's [TRIO™ 8-series and 10-series Vibration Data Collectors](#) as well as its flagship [WATCHMAN Reliability Services™](#). The latest generation of vibration data collectors and machine condition analyzers from Azima DLI feature a portable design to meet the demands of the field while delivering data at improved efficiency levels.

Who: Azima DLI is the leader and premier provider of predictive maintenance analytical services and products that align with customers' high standards for reliability, availability and uptime.

What: Azima DLI provides organizations with the predictive maintenance tools and expertise necessary to achieve their maintenance goals in any environment. The latest additions to the family of TRIO Vibration Data Collectors and Analyzers enable maintenance professionals to improve the effectiveness of their condition monitoring programs, allowing facilities to get more done in less time, lowering the overall program costs.

TRIO CA10 Vibration Data Collector and CX10 Expert Diagnostic Analyzer

The TRIO 10-series is also WATCHMAN Reliability Portal-Enabled, empowering maintenance professionals with actionable information when they need it, 24 hours a day, seven days a week. In an industry where safety and performance are critical to the success of predictive maintenance programs, the CX10 is capable of performing at all times with a large hot-swappable battery, powerful dual-core processor and 10" touchscreen.

TRIO CA8 Vibration Data Collector and CX8 Expert Diagnostic Analyzer

The CX8 is ideal for manufacturing professionals and industry leaders who are looking to implement a tablet-style device for their everyday work. Features and capabilities of the TRIO CA8 and CX8 aim to help maintenance workers ensure top performance, productivity and safety to users evaluating the success of PdM

programs. The TRIO CX8 is WATCHMAN Reliability Portal-Enabled and comes with Genuine Windows® 7 Professional pre-installed giving customers the option of making a seamless connection to the maintenance department's network or operate as a stand-alone instrument right out of the box.

When: RELIABILITY 2.0 will be held Monday, April 7 – Friday, April 11, 2014.

Where: The conference and expo will take place at the South Point Hotel, Casino & Spa, 9777 Las Vegas Blvd S in Las Vegas.

About RELIABILITY 2.0

The RELIABILITY 2.0 conference applies to anyone who has responsibility for asset care, reliability and maintenance. There is a mix of educational topics and case studies for beginners and seasoned professionals alike. 95% of past attendees report discovering new improvement ideas that they put into practice within weeks of attending Reliability 2.0. This year's conference also features innovative strategies for plant reliability practices, addressing opportunities to increase production and lower costs. The speakers tackle issues on maintenance work management, reliability centered maintenance, computerized maintenance management, asset health, condition monitoring and business profitability performance.

About Azima DLI

Azima DLI is the leader and premier provider of predictive maintenance analytical services and products that align with customers' high standards for reliability, availability and uptime. Azima DLI's WATCHMAN™ Reliability Services utilize flexible deployment models, proven diagnostic software and unmatched analytical expertise to deliver sustainable, scalable and cost-effective condition-based maintenance programs. The company delivers machine health reliability solutions with global reach that reduce risk, improve safety, increase production and optimize efficiency. Azima DLI is headquartered in Woburn, Massachusetts with offices across the U.S. and international representation in Asia-Pacific, Central America, Europe and South America.
